		5-7 pm	Live Music Odds & Ends Band		

# Power of the Past

## Antique Engine & Tractor Show

Plan now to attend the twenty-fourth annual Power of the Past Antique Engine & Tractor Show, September 7, 8, 9, 2018. Ottawa, home of Warner Manufacturing and Union Foundry, is a perfect site to see the gas and horse-powered farm implements of the past.

This show is much more than a gathering of gas engine and tractor enthusiasts, although those are pretty amazing when all the engines are chugging at once! With the passage of time, many of our younger generation have never seen or experienced farm life in its heyday. We’re creating a learning experience from this event, where the future meets the past.

We say to senior citizens in our community, come out and see the farm equipment of your youth. To the younger generation we say, observe an experience of a “pre-computer” age. Everyone should see the Power of the Past!

- Tractors & Engines Featured in the Past
